AUGUSTINUS BADER

EVERYTHING YOUR BODY NEEDS, IT ALREADY KNOWS !

No need for myths or miracles, every single one of us is made up of trillions of cells working in unison, orchestrated by a genetic code driving every instinct, thought, feeling and the incredible, innate capacity to heal. From skincare to clinical practice to biotech research, all Augustinus Bader advances are grounded in a belief that the body is its own best therapist. For every giant leap in technology, the human body remains our most remarkable machine. This belief has led Professor Augustinus Bader, one of the foremost scientists of his generation, to unlock the body's healing code.

THE METHOD FACE THERAPY

The Method Face by Augustinus Bader is a one-of-a-kind, highly sophisticated skincare treatment. It was created to boost cell communication to support the body's innate biological wisdom to self-heal and regenerate. The method supports cell activity, which is responsible for balanced hydration, firmness, equal pigmentation, and protection of the skin, to fight against intrinsic and extrinsic aggressors. It refines the surface by boosting the exfoliation metabolism and sealing the skin to prevent TEWL (Trans epidermal Water Loss). The combination of science-based formulas, cutting-edge technology and state-of-the-art massage techniques send an external trigger to the fascia, namely the tissue; this is where all the cell communication processes take place. This synergy delivers highly targeted individual stimulation, triggering a sequence of highly individualized regenerative processes. Augustinus Bader products could be thought of as a toolbox that the skin yields the most benefits from. These creations resolve all skin-related problems effectively, taking the optimal amount of time to attain the most suitable solution for individual skin needs.
