

MINTHIS

GOLF CLUB

“ There are few places in the world of golf where you can play in such beautiful surroundings as Minthis , with the Troodos Mountains as a backdrop and the course tucked away in a beautiful valley”.

Tom Mackenzie

CHAMPIONSHIP COURSE

■

The course at Minthis is a beautiful and challenging 18-hole championship course that winds its way past a 12th-century monastery with breathtaking views of the Troodos Mountains and beyond. Designed by legendary golf architect Donald Steel in 1994 and renovated by renowned course designers Mackenzie & Ebert, it is a flawless example of their philosophy that golf courses should fit into the natural terrain and challenge players of all levels.

INCREDIBLE LOCATION

Minthis draws its core identity from the imposing character with incised ravines and rugged vegetation. The course boasts outstanding holes where views and vistas are a distinctive feature, organically following the natural undulations of the topography, looping past water features and ancient groves, with hundreds of olive trees, fruit orchards and grapevines with the mountains in the distance beyond.

A RICH HERITAGE

The resort is situated in the heart of Pafos' wine producing region, just ten minutes outside the town surrounded by quaint traditional villages, providing an authentic experience of Cyprus. The historical location which encircles a 12th-century monastery, from which the resort derived its name, provides a dramatic backdrop for an outstanding game that will mesmerise and delight players of all levels.

DESIGN

At an altitude of 550 metres above sea level it is a course for all seasons, enjoying cool breezes during the summer and a mild winter climate. The course has been enhanced by Mackenzie & Ebert famed for their work on the British Open Championship courses, the same design company used by the R&A for many of the courses on the Open Rota. They are fervent believers that golf courses should fit into the landscape and be in-keeping with their setting, Minthis is a perfect example of this that offers a great variety between holes.

Minthis has enjoyed a successful partnership with renowned golf course architects Mackenzie & Ebert for the past fifteen years, with major upgrades being undertaken from 2017 to 2020. The course architects impressive track record, advising 17 of the Top 100 Courses in the world including Royal Dornoch and Walton Heath and 7 of the 10 Open Championship venues, as well as their design philosophy that reflects our respect for nature is what makes the course truly unique.

Recently, Tom Mackenzie and his team have been instrumental with the enhancement of the course redesign and new greens. With his help and a dedicated team of experts we have rebuilt the present clay push-up greens to conform to sand based USGA specification standards. The new greens have been seeded with 007 Creeping Bent Grass and to compliment them we have renovated the green side bunkers and reshaped the surrounds. The course now boasts an exciting new layout with a new 10th hole and total distance of over 5879m. The enhanced golf experience at Minthis promises to be one to remember!

“Our work at Minthis has focused on making it even more beautiful by drawing the monastery into the landscape and opening views towards the Troodos Mountains”.

THE COURSE

Few places are so tranquil for a friendly game, elevated tees invite everyone to “have a go”, yet narrow tree-lined fairways provide a challenge, with each shot requiring careful assessment.

The opening nine holes is the shorter half of the course, encircling the historic monastery, vineyards, orchards and olive trees. These holes have been cleverly designed to give players a fair start to the round, keeping in mind the sloping tree-lined Par 5 3rd hole and the long 6th hole with blind approach. At the turn, the 9th hole finishes in front of the impressive contemporary Clubhouse.

The back nine holes are all about precision and there is great variety of challenges. The newly designed Par 5 10th hole is a perfect example of the accurate insight to the challenges you will face.

It may be hard to concentrate on dramatically elevated tees because of the picture perfect views, but you will need a well struck tee shot over the valley to find the generous fairway. Once on the fairway, you are faced with a blind, severely uphill second shot. With the back of the green surrounded with out of bounds, the percentage play would be to lay up near the fairway bunker at the top of the hill, giving you a 50 – 100m approach shot to the green. It undoubtedly requires some skill and is a hole to remember with one of the best views in Cyprus.

In addition the short Par 4 14th offers the best risk and reward tee shot on the course. The green can be reached with a well struck drive, although danger lurks with the steep valley cascading away. The ultimate test is the Par 3 15th hole, an impressive island green and Minthis’ signature hole.

SIGNATURE HOLE

The 15th hole has been transformed into a superb island green. Challenging and memorable it leaves little room for error and an unwary golfer will lose many a ball to the lake that surrounds it. A par three without bunkers or fairway, and just 150m from its elevated tee to green, it's an all or nothing shot requiring accuracy and skill from even the most proficient golfer. If that's not enough of a challenge throw in a cross wind and this shot will promise to be testing time and time again!

THE ACADEMY

Minthis Golf Academy is dedicated to creating outstanding golf learning experiences to improve your game while making it all the more enjoyable. Golf is one of the most pleasurable and fulfilling of sports, but is also one of the most challenging to learn and master without good help and guidance. Minthis Golf Academy believes in a complete approach to game improvement, covering all aspects of the game, including the full swing, the short game, course management, practice techniques, mental training and correctly fitted equipment.

GEO CERTIFICATION

■

Minthis is proud to be the first golf club in Cyprus awarded with a distinction recognising our eco-friendly approach and commitment to sustainability.

GEO (Golf Environment Organisation) is an independently assessed international eco-label for golf clubs. It is the most respected mark for golf sustainability and is awarded to golf facilities that have met the voluntary industry standard of good practices for golf course and facility operations, demonstrating a clear commitment to nature, resource conservation and community value.

SUSTAINABILITY

Minthis is a unique resort destination inspired by the spirit of the protected Cypriot landscape. Our Sustainability story began when the resort concept was created.

As part of a protected Natura 2000 site, spanning 5 million square meters, nature and the environment is deeply embedded in our DNA and influences all of our strategies. Through a unified and focused strategy, we continually engage in initiatives that enrich and strengthen the environment and the long-term sustainability of the communities we touch. We always strive to make a positive impact in our homeland of Cyprus, becoming the first to achieve so many Sustainability awards, this something which we are truly passionate and proud of.
